AICTE-EDUSKILLS VIRTUAL INTERNSHIPS

Data Science Master Virtual Internship

An 8-Week Professional Internship Presentation Report

INTERNSHIP DURATION
April – June 2026 (8 Weeks)

STUDENT CREDENTIALS

Prachi Rathour

Enrollment / Roll No.
2410030986

Program & Semester
B.Tech (CSE), 5th sem

HOST ORGANIZATION
EduSkills Academy
Supported by AICTE National Internship Portal

Made with GAMMA

Candidate & Program Overview

Candidate Details

Student Name: PRACHI RATHOUR

Roll Number: 2410030986

Degree: B.Tech (Computer Science & Engineering)

Academic Batch: 2026-2027

University: IILM University, Greater Noida, U.P.

Internship Profile

Program Name: AICTE – EduSkills Data Science Master Virtual Internship

Specialization Domain: Data Science & Advanced Analytics

Duration: 8 Weeks (April 2026 – June 2026)

Certificate ID: 40eca1f4e2c02052a27f

Offer Letter Ref: C16Y2026M081441027

Organization Profile: EduSkills Academy

EduSkills Academy is an ISO 9001:2015 and ISO 20000-1:2018 certified organization operating under the vision of "Nation Building Through Skills".

AICTE Collaboration: Operates under the patronage of the AICTE National Internship Portal to empower engineering talent across India.

Industry Alignment: Partners with leading global tech organizations to bridge academia and industry gaps in emerging tech.

Core Focus Domains: Data Science, Machine Learning, Cloud Computing, Advanced Analytics, and Enterprise Automation.

Problem Statement & Industry Context

The Industry Challenge

While academic curriculum extensively covers building Machine Learning and Deep Learning models, students often lack hands-on exposure to deploying models into real-world production systems. A high-performing ML model in a Jupyter Notebook provides zero business value until it is exposed as a reliable, scalable, monitorable, and secure API service.

The Solution Scope

This internship addresses the complete end-to-end lifecycle of production AI: model serving, container packaging, cloud hosting, automated scaling, observability, and retraining triggers. Mastering industry-grade tools (RapidMiner, Python, scikit-learn, SQL) to transform research prototypes into enterprise data science solutions.

Core Learning Objectives

Data Engineering Mastery

Master data engineering, machine learning, and advanced data handling techniques using industry-standard tools.

ML Model Development

Build foundational and advanced ML skills from supervised learning to complex ensemble methods.

Production Deployment

Deploy and monitor ML models in real production environments.

Enterprise Administration

Configure enterprise-level platform administration and data governance.

Curriculum Timeline (Weeks 1 to 4)

Week 1: Applications & Use Cases Professional

Identify business problems suitable for AI/ML.

Week 2: Data Engineering Professional

Access, load, transform, and calculate data.

Week 3: Machine Learning Professional

Build foundational ML skills.

Week 4: Data Preparation Master

Master advanced data handling and automation.

Curriculum Timeline (Weeks 5 to 8)

Week 5: Machine Learning Master

Advanced ML techniques and optimization.

Week 6: Applications & Use Cases Master

Deploy and monitor ML models.

Week 7: Platform Administration Master

Configure RapidMiner AI Hub.

Week 8: Enterprise Operations

Enterprise-level platform operations and capstone project.

Technologies & Tools

ML Platforms

RapidMiner, Python, scikit-learn for model development and experimentation.

Data Processing

SQL, ETL pipelines, feature engineering, and data transformation for production-grade analytics.

Visualization

Interactive dashboards, business intelligence tools, and real-time reporting for insights.

Cloud & Deployment

Cloud infrastructure, containerization, model serving, and continuous monitoring for production systems.

Key Projects & Demonstrated Skills

Data Engineering & ETL - Designed and implemented robust data pipelines for large-scale processing.

Machine Learning Model Development - Built, trained, and evaluated ML models across multiple paradigms.

Feature Engineering - Created meaningful input features to improve model performance.

Model Deployment & Monitoring - Deployed models to production and monitored ongoing performance.

Enterprise Platform Administration - Configured and managed enterprise-level AI platform infrastructure.

Professional Certifications Achieved

Data Engineering Master - Advanced data handling, transformation, and scripting workflows.

Machine Learning Professional - Classification, regression, and clustering techniques.

Machine Learning Master - Complex models, ensemble methods, and feature engineering.

Applications & Use Cases Professional - ML use cases identification and business visualization.

Applications & Use Cases Master - Model deployment, monitoring, and lifecycle management.

Platform Administration Master - RapidMiner AI Hub configuration and enterprise administration.

Certification & Official Verification

Verification Metric	Official Record / Credential Details
Internship Title	Data Science Master Virtual Internship
Issuing Organization	EduSkills Academy (ISO 9001:2015 & ISO 20000-1:2018 Certified)
Academic Patronage	AICTE National Internship Portal & EduSkills Foundation
Certificate ID	40eca1f4e2c02052a27f (Issued: June 2026)
Offer Letter Ref	C16Y2026M081441027
AICTE Student ID	STU6836a9321c16f1748412722

Certification & Official Verification

AICTE - EduSkills 2026 VIRTUAL INTERNSHIP

Certificate of Virtual Internship

This is to certify that

Prachi Rathour

IILM University, Greater Noida

has successfully completed the 8-weeks

Data Science Master Virtual Internship

During April - June 2026

May this Internship learning propel you toward a bright and successful career.
